Custom Mirror Products with the MEEK Guarantee Since 1961

A VETERAN OWNED SMALL BUSINESS

# Buy American. Buy Quality. Buy Direct. Finish your job sooner with Meek.

## COMMERCIAL

The corners tell the quality story. Frankly, the best finish in the industry. Installs in 2 minutes. Angle and channel frames. Glass marker boards.

## ADA & HEALTHCARE

In the demanding world of healthcare, Meek knows what the industry demands and delivers.

## DESIGNER DECOR

Today's creative designer requires multiple face widths, finishes, materials and mouldings. Meek delivers what the others can't.

## CUSTOM MIRRORS

Using innovative technology like LED lighting and quality materials, Meek is expanding the limits of mirror design.

## A History of Innovation

In 1961, Meek Mirrors designed and patented the Theft Proof Snap Mirror Frame® to fill a need in the construction market.

Since then Meek products have been installed in more than two million locations by over six thousand dealers. Manufacturing, sales, marketing and administration are located in Fort Smith, Arkansas.

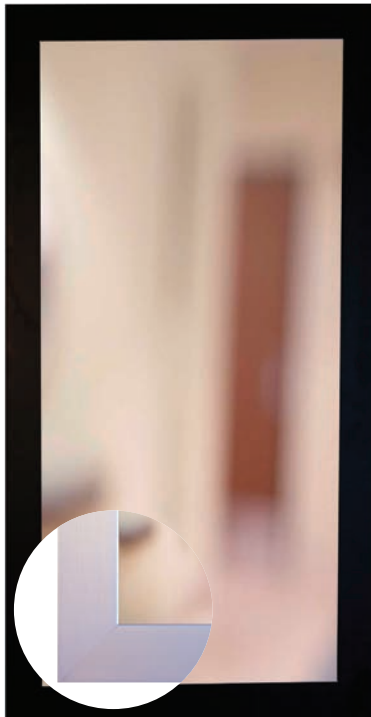

- **Always American Made**
- **Environmentally Friendly**
- **Beautifully Hand-Crafted**
- **Quick Delivery & Custom Sizes**

# What's Hot at Meek Mirrors?

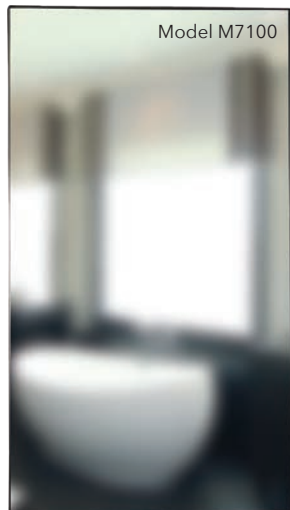

## Infinity Floating Mirror

Meek's Infinity Mirror is a truly elegant polished edge mirror floating in a sleek handcrafted stainless steel frame. The deep reflective quality of the mirror glass and the hand polished corners and edges make this an exceptional mirror. It features minimal, classic lines for a modern and contemporary style. This stylish mirror is a distinctive addition to any room.

As always, Meek uses high quality stainless steel and 1/4 inch mirror making it perfect for any restroom including upscale commercial projects. Our Infinity Mirror is easily installed and features Meek's patented mounting system.

Best corners in the business!

Model M7100

## Aluminum Frame Mirrors

Meek's aluminum framed mirrors bring a new visually appealing element to the framed mirror industry. This concept is excellent for large commercial and residential projects and may also be used for artwork. The frames are available in a variety of colors. Each unit hangs with Meek's non-visible security bar mounting system.

M1500/2500 Series

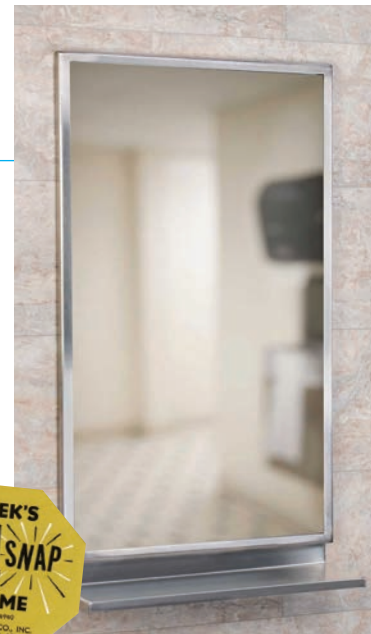

## Stainless Steel Channel Framed Mirror

- The stainless steel channel frame mirror is formed from type 430\* stainless steel with the corners mitered to a neat hairline joint.
- The mirror installs easily on a non-visible mounting that is corrosion resistant with a galvanized theft resistant locking system.
- The stainless steel frame measures 9/16" x 9/16" x 9/16".
- This mirror can be combined with the Meek Skyway Shelf for a mirror/shelf unit.
- Available in bright or satin finish.

\* Also available in type 304

## Stainless Steel Angle Frame Mirror

- Meek's angle frame mirrors are constructed of 18 gauge type 304 stainless steel with welded and polished corners
- The frame measures 5/8" x 3/4"
- Theft resistant and vandal resistant, this mirror features quick and easy installation with no visible mounting
- Save money and freight costs by ordering the frame only and installing the mirror yourself as the mirror is field replaceable
- This angle frame mirror can be combined with a Meek shelf
- Available in bright or satin finish

M1100/1200 Series

M4300/4400 Series

## ADA Solid Fixed Tilt Mirror

- This entire line is constructed from 18 gauge, type 304 stainless steel formed to a right angle with welded and polished corners.
- The ADA tilt mirror frame snaps to a galvanized steel back plate to provide theft-resistant mounting.
- It is recommended that the bottom of these mirrors be installed 40" above the floor.
- The Solid Fixed Tilt Framed Mirror is a fixed position mirror with a completely enclosed frame which extends from the wall 4" at the top and 1" at the bottom.
- You can save costs and freight expenses by ordering the frame only and glazing the frames yourself in the field.
- Available in bright or satin finish

### Stainless Steel Security Mirrors

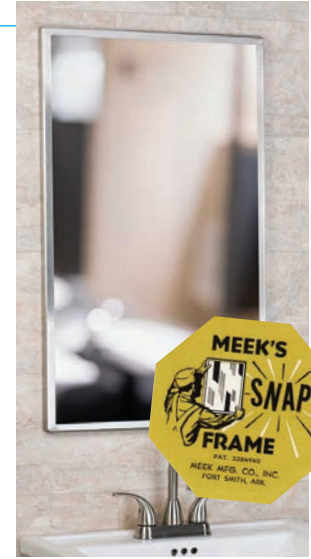

- Meek stainless steel mirrors are widely used in prisons, mental institutions and rest areas.
- They are a non-breakable reflective surface for areas with a high risk of vandalism.
- All are Type 304, 18 gauge (1.16mm) No.8 architectural grade mirror finish. Protected during shipment with PVC covering.

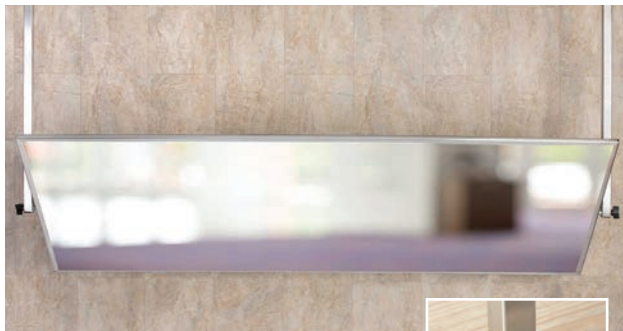

M5100 Series

M5400 Series

M5300 Series

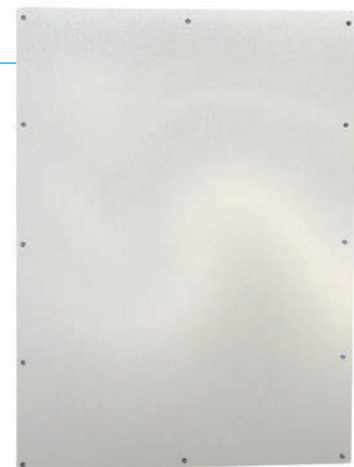

M5914 Series

### Demonstration Mirror

- This demonstration mirror has 1/8" acrylic mirror on one side and off-white color laminate on the other side framed by a satin finish stainless channel frame
- The mirror rotates 360° and is adjustable to any angle
- The supports, which can be mounted to the ceiling or to a table top with mounting plates, are constructed of 1" 14 gauge stainless steel tubing
- This mirror is ideal for chemistry labs, cooking schools, demonstrations, and security.

### ToughBreak Polycarbonate Safety Mirror

- Hard to break and shatterproof mirror with rounded edges
- Features a polycarbonate lens sourced in the USA that makes for one very tough mirror
- Recommended for applications where safety is the primary concern or where breakage and/or vandalism is possible
- Engineered for the most demanding and harshest environments; behavioral health facilities, nursing homes, adult day care centers, mental health facilities and anywhere that safety is the number one concern

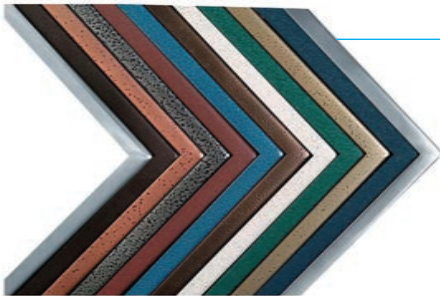

Model M0700

# Marker Boards, Frames, Shelves, and Much More!

## Glass Marker Boards

- Elegant glass marker board with soft white back ground or your choice of colors
- No "ghosting" because the durable glass surface cleans easily
- Sized to meet your requirements
- Available framed, unframed or with stand-offs

## Powder Coated Steel Frames

- From primary color to colors that match your imagination and design
- Standard and custom sizes
- Easy mounting with Meek's patented mounting system

## Stainless Steel Shelves: Integral, Skyway & Skyline

Meek offers a variety of shelving units that compliment your mirror perfectly. The Skyline is our independently mounted unit. Whereas the Integral & Skyway shelves can be mounted behind the mirror to look like one complete unit.

## Grab Bars and Washroom Accessories

- ADA grab bars
- Paper towel dispensers
- Soap dispensers
- Toilet tissue dispensers

## Dome & Convex Surveillance Mirrors

- These mirrors provide collision prevention and surveillance in hospitals, clinics, industrial warehouses, prisons and retail & commercial facilities.
