

As summer approaches and the building season is in full swing, many people forget to order the mirrors and washroom accessories for their projects. These products are sometimes overlooked because they are one of the last items installed in a building. If it happens to you, don't worry because Meek's got you covered. Standard stock sizes ship within 1-2 days and most custom items ship within 2-3 weeks.

Meek has several different options to help you get those remodels finished. Our [Channel](#) framed mirror is formed from type 430 stainless steel with tight mitered corners, This mirror easily installs with installs with a non-visible mounting system that is theft resistant. Perfect for those high traffic areas. Meek also has the original "Snap" [Angle](#) framed mirror which is constructed of 18 gauge type 304 stainless steel. Also with concealed mounting making it theft resistant.
